

Basic Small MOB Boat with Night Maneuvers

Book at maersktraining.com

AVAILABLE LANGUAGES

English, Norwegian

The course provides participants with the knowledge and practical skills required to operate a large MOB boat, including emergency organisation, launching and recovery, manoeuvring, navigation, communication, search and rescue, and practical first aid. An extended option includes practical MOB boat operations in darkness.

Essential Information

Prerequisites

Participants must have completed Basic Safety Training.

Who is it for?

Crew members on fixed or floating offshore installations who are assigned to operate a large MOB boat in accordance with Offshore Norge guidelines.

Assessment

Participants are assessed throughout all practical training. If a participant does not successfully complete the practical training, the reason for the assessment outcome will be provided. At the end of the course, participants must complete a theoretical test. Participants who do not demonstrate achievement of the required competence objectives will not successfully complete the course.

Certification

Upon successful completion you will get a certificate valid for 2 years

Course content
