

On-Scene Commander Refresher

Book at maersktraining.com

AVAILABLE LANGUAGES

English, Norwegian

The course refreshes and maintains the knowledge and practical skills required to lead and coordinate emergency response activities at an incident site, including communication, risk assessment, resource coordination, decision-making and management of personnel.

Essential Information

Prerequisites

Participants must have completed the On-Scene Commander Basic Course.

Who is it for?

On-scene commanders and emergency response personnel with responsibility for coordinating activities at an incident site.

Assessment

Participants are assessed throughout all practical training. If a participant does not successfully complete the practical training, the reason for the assessment outcome will be provided. Participants who do not demonstrate achievement of the required competence objectives will not successfully complete the course.

Certification

Upon successful completion you will receive a certificate valid for two years according to Offshore Norge standards

Course content

• Emergency Response Organisation

Organisation, roles, responsibilities and communication within the offshore emergency response structure

• On-Scene Command

Leadership, decision-making, risk assessment, communication and coordination of emergency response activities at the incident site.

• Incident Assessment

Assessment and reporting of the situation, damage, escalation potential and resource requirements.

• Response Coordination

Coordination of emergency teams and maintenance of personnel safety during response activities.

• Normalisation

Management of the transition from emergency response towards normal operations.

• Stress and Crisis Management

Recognition and management of stress and crisis reactions during emergency response activities.

Key Learning Objectives

01 L01 – Apply appropriate leadership and decision-making processes during an emergency situation.

02 L02 – Establish and maintain communication with the control room and emergency response management.

- | | |
|---|--|
| 03 L03 — Act as the emergency response management team's primary source of information from the incident site. | 04 L04 — Establish an incident command point and provide relevant information to emergency management and response teams. |
| 05 L05 — Describe the situation, extent of damage and potential factors that could lead to escalation. | 06 L06 — Assess risks and maintain the safety of emergency response personnel at the incident site. |
| 07 L07 — Communicate the required response and resource needs to the relevant emergency response teams. | 08 L08 — Coordinate emergency response teams and activities at the incident site. |
| 09 L09 — Manage the transition from emergency response towards normalisation. | 10 L010 — Apply appropriate principles for managing stress and crisis reactions during emergency response. |
