

STCW Advanced Safety Training for Maritime Officers without Travel Time

Book at maersktraining.com

AVAILABLE LANGUAGES

English, Norwegian

The course refreshes and maintains the safety and emergency response competencies required for deck and engine officers without valid sea service during the previous 5 years. Training covers personal survival, survival craft, firefighting, first aid and emergency response. The competence requirements differ slightly by officer category.

Essential Information

Prerequisites

Participants must previously have completed and passed the applicable STCW training: Deck Officers: STCW Tables A-VI/1-1, A-VI/1-2, A-VI/1-3 and A-VI/1-4 STCW Table A-VI/2-1 STCW Table A-VI/3 STCW Table A-VI/4-1 STCW Table A-VI/4-2 Engine Officers: STCW Tables A-VI/1-1, A-VI/1-2, A-VI/1-3 and A-VI/1-4 STCW Table A-VI/2-1 STCW Table A-VI/3 STCW Table A-VI/4-1

Who is it for?

Deck and engine officers who do not have valid sea service within the previous 5 years and require refresher training to maintain the relevant STCW safety competencies.

Assessment

Participants must pass a written test with a minimum score of 80%. The written assessment is designed so that the 80% pass mark meets the Norwegian Maritime Authority requirement for full achievement of the required competence. All required practical exercises must be completed. Participants are observed individually by the instructor during practical exercises. The instructor assesses whether the participant demonstrates the required knowledge, understanding and practical skills in accordance with the applicable minimum competence standards.

Certification

Upon successful completion, you will receive an NMA recognized certificate valid for 5 years

Course content

• Emergencies and Evacuation

Emergency situations, evacuation procedures and appropriate actions during onboard emergencies.

• Helicopter Rescue

Principles and considerations related to helicopter rescue during maritime emergencies.

• Personal Survival Equipment

Use of personal lifesaving equipment and practical survival techniques at sea.

• Firefighting Equipment

Practical use of fire extinguishers and other firefighting equipment.

- **Fixed Firefighting Systems**

Precautions and appropriate actions when using fixed firefighting systems.

- **First Aid**

General first aid principles and immediate response to injury or illness onboard.

- **Survivor Management**

Management of survivors and survival craft following abandonment of the vessel.

- **Firefighting Leadership**

Organisation and leadership of firefighting operations onboard ship.

- **Fire Equipment Maintenance**

Inspection and maintenance of fire detection and firefighting systems and equipment.

- **Medical First Aid**

Immediate first aid in cases of accident or illness onboard.

- **General Nursing**

General nursing principles and practical patient care onboard.

- **Medicines and Equipment**

Appropriate use of medicines and medical equipment available onboard.

- **Breathing Apparatus**

Use of breathing apparatus during firefighting and rescue operations.

- **Survival Craft Operations**

Taking charge of a survival craft or rescue boat during and after launching.

- **Locating and Signalling Equipment**

Use of locating devices, communication equipment, light signals and smoke signals.

- **Fire Team Management**

Organisation and training of fire parties.

- **Fire Incident Investigation**

Investigation of fire-related incidents and preparation of reports.

- **Medical Care**

Life-saving first aid and medical treatment required for personnel responsible for medical care onboard.

- **Illness and Disease**

Recognition and management of illnesses and medical conditions.

- **Practical Medical Care**

Practical exercises in assessment, treatment and care of patients onboard.

Key Learning Objectives

01 L01 — Demonstrate personal survival skills and appropriate actions during emergencies and evacuation.

03 L03 — Use firefighting equipment and breathing apparatus and apply appropriate firefighting procedures.

05 L05 — Manage survivors and survival craft following abandonment of the vessel.

07 L07 — Lead and organise firefighting operations onboard ship.

09 L09 — Investigate incidents involving fire and prepare appropriate reports.

02 L02 — Use personal lifesaving equipment and apply survival techniques at sea.

04 L04 — Take charge of a survival craft or rescue boat during and after launching.

06 L06 — Use locating, communication and signalling equipment during survival and rescue operations.

08 L08 — Organise and train fire parties and inspect and maintain fire detection and firefighting equipment.

10 L010 — Provide immediate first aid in the event of an accident or illness onboard.

11 L011 — Provide life-saving first aid and medical treatment onboard ship in accordance with STCW Table A-VI/4-2.

13 L013 — Apply principles of intravenous fluid therapy and demonstrate practical medical treatment skills.

12 L012 — Apply general nursing principles and use medicines and medical equipment appropriately.
