

Timoneiro Básico de Bote Salva-vidas - Bote Salva-vidas Convencional

Reserve em maersktraining.com

IDIOMAS DISPONÍVEIS

Inglês, Norueguês

O curso fornece aos participantes o conhecimento e as habilidades práticas necessárias para desempenhar a função de timoneiro de um bote salva-vidas convencional, incluindo preparação, reunião, evacuação, lançamento, manobra, comunicação e resposta a emergências.

Informações essenciais

Pré-requisitos

Participants must have completed: Basic Safety Training VHF/SRC Certificate

Para quem é?

Personnel who are required to perform the function of a conventional lifeboat coxswain.

Avaliação

Participants are assessed throughout all practical training. If a participant does not successfully complete the practical training, the reason for the assessment outcome will be provided. At the end of the course, participants must complete a theoretical test. Participants who do not demonstrate achievement of the required competence objectives will not successfully complete the course.

Certificação

Upon successful completion, you will receive a certificate valid for 4 years

Course content

• Emergency Preparedness

Emergency response organisation, command structure and reactions during emergency situations.

• Mustering and Evacuation

Mustering, preparation of the lifeboat, embarkation and evacuation procedures.

• Communication

Radio communication, internal lifeboat communication and communication with emergency response personnel.

• Alternative Evacuation Means

Alternative evacuation methods, including liferafts and evacuation chutes.

• Lifeboat Fundamentals

Basic introduction to conventional lifeboats and their use during evacuation.

• Launching and Manoeuvring

Launching the conventional lifeboat and manoeuvring it to a safe area.

• Emergency Systems and Equipment

Use of emergency systems and equipment under different conditions onboard the lifeboat.
